503 703 6696

Front-end web developer and designer leveraging design thinking, autodidacticism, and strong communication skills to generate creative solutions for multivarious problems. Specializing in front-end development with a focus on providing intuitive and innovative user experiences.

Skills

JavaScript · SCSS · UI Design

Education

Epicodus | CSS/JavaScript/Design Track

2016

More than 40 hours a week spent solo and pair-programming over 80 applications and webpages using TypeScript, jQuery, various APIs, Sass, the Angular2 and Ember frameworks, object-oriented programming in vanilla JavaScript, version control with Git, build automation with Gulp, and behavior-driven and test-driven development with Mocha and Chai. Additionally, learning to design responsive, mobile-first apps and webpages using Sketch, prototyping with InVision, user-testing, and other UX strategies including generation of user personas, stories, and flows.

Projects included:

- An Ember app using the YouTube API that allows users to search for and save low view count Lifehack and how-to videos.
- A responsive photography portfolio site using Sass and Bourbon Neat.
- A dice roller app using the Materialize library and jQuery.
- A wholesale cannabis marketplace using Sass, PHP, and a MySQL server.

Education (continued)

St. John's College Santa Fe | Great Books Program 2011 - 2012

One semester studying Ancient Greek, Philosophy, Music theory, Euclid's Elements, and the foundations of modern Science.

Experience

GrayBox | Web Development Intern 2016

Providing front- and back-end support for GrayBox's 60+ clients on multiple projects utilizing ExpressionEngine, Angular 1, and Wordpress.

Projects included:

- Data entry tasks in Accelo, QuoteRoller, Box, 1Password, and Excel to increase company security by consolidating passwords, and increase project timeline estimation accuracy by organizing hour allocation data.
- Restyling the related articles of each Solutions page on the Graybox site to adhere to design standards at all viewport widths.
- Adding PHP logic to Graybox site to hide sections based on number of entries in an ExpressionEngine Channel to reduce visual clutter.
- Creating and styling a custom PandaDoc template for sales proposals sectioned into modular content blocks and using auto-filling tokens to maximize customization and efficiency.
- Writing an internal guide for setting up SSL on AWS EC2 and NGINX servers to ensure best practices.

Freelance | Front-end Web Development & Design 2015 - Present

Multiple design and development projects for artists including designing and building a Wordpress theme for a photography portfolio using custom fields and post types to allow the artist more customization options than her previous Indexhibit site, re-formatting a PHP site for a New York gallery from the Wayback Machine archive, and creating an interactive web experience using jQuery and CSS animations for an art installation at the Paimio Sanatorium in Finland.

Experience (continued)

OHSU | Cafeteria Cashier/Trainer 2015 – 2016

Fast paced customer service for diverse clientele, serving food, organizing and cleaning client-facing areas and storerooms, training new staff members and leads, and going above and beyond to help each customer and ensure a pleasant hospital stay.

KMikeyM | Research Assistant 2014 – 2015

Self-directed research on a wide variety of topics for the world's first publicly traded man culminating in written reports published on the Urban Honking blog.

Target Starbucks | Barista/Trainer 2013 – 2014

Fast paced customer service, training of new staff members and team leads with the highest professional standards, and going the extra mile to ensure a fantastic customer experience.

St. John's College Student Library | Library Assistant 2011 – 2012

Using SirsiDynix's Horizon software helping people locate books within the library, re-shelving and re-organizing various sections of the library, and generating a monthly thematic main lobby display.

Portland Parks & Recreation | Swim Instructor 2011

Developing lesson plans and personalizing the learning experience to each student's needs and styles of learning while maintaining the highest standards for safety.

MESD Outdoor School Program | Student Leader 2008 – 2009

Managing a cabin of 9 middle school students for 1-week sessions, teaching the Animals field study, leading hikes.

Experience (continued)

Portland Public Library | Summer Reading Volunteer 2005 – 2008

Administering prizes and educating patrons about the Summer Reading program.
